ABOUT US

1 ABOUT US

WHAT IS FAIRTRAXE

● ABOUT THE COMPANY

FairTraxe is a unique online investment platform, which allows independent investors from all over the world to receive dividends from trading different types of currency on major exchanges. You think that cryptocurrency trading is too risky, and the entry threshold for the Forex market, as well as stock exchanges, is set too high? With FairTraxe, you will not have to worry about any of these aspects anymore - entrust your money management to our professional team.

We offer our clients more than just a way to earn – we offer innovations in the world of investment and cryptocurrencies, which can bring your life quality to a whole new level.

Competent financial management is not an easy task. Most people are not aware of how they can put their money to work and receive profit from it. Trading strategies and currency market patterns and techniques are often way too complicated for general audience.

Understanding of this problem and desire to find a solution is exactly what brought us to the decision of creating FairTraxe – an accessible asset management

ABOUT US

OUR ACTIVITIES

● LINES OF BUSINESS

1

FairTraxe Company is involved in both direct stock trading in packages of \$10,000 and above, and transactions using CFD contracts, which allows us to execute prompt and wide-scale asset diversification while reducing any possible trading risks. Over 60% of the total profit is used to pay interest to our clients, while the other 30% is covering the fees and wages for our traders, with the rest of the funds forming a reliable

In order to point large budgets in the right direction, enthusiasm alone is not enough – you must be able to clearly follow economic trends, track global changes in the markets and have considerable knowledge in the field of financial analytics. This is the reason why FairTraxe specialists eagerly share their working experience with large international companies (and our traders make decent profits from trading their stocks afterwards!)

2

Full decentralization, anonymity and security turn Blockchain into an ideal platform for all sorts of currency operations. The immense volatility of major cryptocurrencies is a real gold mine for crypto traders. Depending on current trends and the overall situation on the market, we use long- and short-term strategies, as well as scalping, which is a good tool for achieving maximum profitability in the shortest time.

3

OUR ACTIVITIES

● EFFICIENCY OF THE COMPANY

Unlike many traditional funds, the FairTraxe Company supports the policy of complete anonymity of users on the Internet. We are not going to ask you for any extra personal information, statements of income and other sensitive data.

1. We do not disclose or sell any information about our clients and their transactions to any third parties
2. As a financial organization, we operate strictly within the policies of international financial law
3. Your funds are reliably protected thanks to the use of Blockchain technologies in compliance with all existing security measures
